

SUCCESSFULLY TESTED BLAST-RESISTANT BUILDINGS EQUIPPED WITH THREAT MITIGATION.

COVERSIX SHELTERS

BUILT-TO-ORDER THREAT MITIGATION.

If you need a building that's built like a tank but doesn't look or feel like one, we've got you covered. Our fully customizable CoverSix Shelters combine the durability of the world's best successfully tested blast-resistant buildings and customer-specific ballistic mitigation with the comfort and functionality of the finest brick and mortar building.

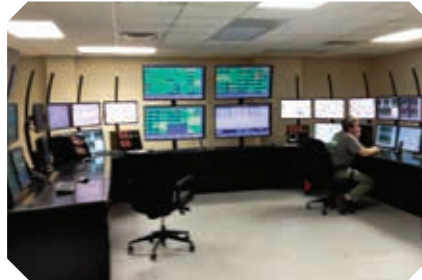

From flooring and wall coverings to custom cabinetry and restrooms (even your building's overall size), we put the power in your hands. The only things off limits are our unparalleled standards for strength and safety.

Customizable CoverSix Shelters are perfect for anywhere you need protection from the threat of blasts, ballistics or natural disasters including: Range Facilities • Command Centers • Emergency Management Facilities • Offices • Controlled Entry Points • Barracks • Medical Facilities • Data Centers • Storm Shelters

CUSTOM EXTERIOR FINISHES

Modular buildings that meet architectural compatibility plans.

COMMAND CENTER

Conduct operations while maintaining threat protection.

CONFERENCE ROOM

State-of-the-art hardened structures for meetings and briefings.
