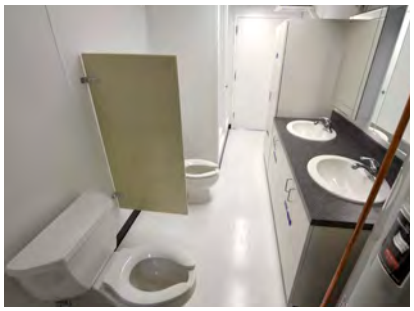
CUSTOM PROJECT #1602 HURRICANE SHELTER

The end user for this application needed to have a constant presence at their power facility, even during events like hurricanes. The building can provide living quarters for up to 12 people during a hurricane. In addition to restrooms, showers, kitchen and sleeping quarters, the building also maintains connectivity to two separate auxiliary power sources in order to keep the unit up and operational.

BUILDING SPECS AND FEATURES

Building Size:
8' X 40' X 8-6'

Protection Level:
Hurricane and Tornado Protection



Why RedGuard?

RedGuard builds modular solutions that protect lives and assets. It is the leading supplier of blast-resistant buildings and modular safe spaces. RedGuard's other innovative divisions and product lines specialize in modular safe structures, most with threat mitigation. The company is dedicated to five key disciplines: concept, design, build, installation and operation. Its success across these areas of expertise has led some of the world's largest organizations to trust their employees' lives to RedGuard products.
