

TURNSTILE

SUCCESSFULLY TESTED, SAFE AND SCALABLE, MODULAR SOLUTIONS

**COVERSIX** SHELTERS

## SAFE, SECURE, SCALABLE ACCESS CONTROL

RedGuard, the trusted name in modular safe-space is, proud to introduce the next evolution in industrial security. CoverSix, the Defense and Security Division of RedGuard, has long been known in the industry as a leader in providing blast-resistant and other robust modular buildings. These buildings have been used as guard shacks, entry-control points, security offices, and permitting facilities throughout the world. These top-of-the-line buildings can now include turnstile modules that provide your facility with customizable and scalable access point protection.

### CUSTOM MODULAR DESIGNS

Top-end interior amenities with quality and industry-leading protection. Available as a conventional robust structure or a blast-resistant building.

### INNOVATIVE TURNSTILE MODULES

Plug and play individual units added to buildings, provide a scalable, modular, expandable system for ultimate flexibility and security.

### ELECTRONIC SECURITY SYSTEMS

Fully integrated into the building and turnstile modules, the access controls, cameras, and lighting are designed to tie seamlessly into existing systems.

**CUSTOMIZED SECURITY OFFICES** Fully designed and engineered to meet your site-specific requirements, we offer buildings which can be blast-resistant, ballistic-protected, or use a robust all-steel structure built for rugged environments. Inside we offer virtually unlimited amenities of a traditional brick and mortar building from floor and wall coverings to custom cabinetry and workspaces, even the building size is tailored to your needs.

### UNMATCHED FLEXIBILITY

Turnstile modules coupled with our 8x10 Guard shack.

Multiple turnstile modules coupled with our 8x20 Office.

**SCALABLE TURNSTILE MODULES** Turnstile Modules can be added to our high quality security offices, this provides an extra layer of security and access control. Our turnstiles attach as auxiliary components creating unlimited scalability to meet the throughput required for your site. In business change is constant. Our innovative turnstile modules can be added or removed as your future needs dictate.

**WORLD CLASS SERVICE** From before the sale, throughout the manufacturing process, and even after, our team of highly-trained professionals, project managers, service techs, and others will ensure that your needs are met. Whether that means delivering a product built in an ISO 9001:2008 certified facility or that our on-site service techs keep the buildings fully-functional using our industry-best practices.

**READY TO GET STARTED?** Give us a call to discuss how CoverSix can provide you with many years of comfort, flexibility and security.
