

8'-WIDE

SUCCESSFULLY TESTED BLAST-RESISTANT BUILDINGS FROM REDGUARD.

LEASEFLEET

THERE'S ALWAYS ROOM FOR SAFETY.

Our space-saving/life-saving eight-foot-wide blast-resistant buildings are the perfect option when a crowded job site leaves you in a tight spot. Engineered to our industry-leading safety specifications, each of our eight-foot-wide blast-resistant buildings adheres to API 753 and has been successfully blast tested. In addition, all of our buildings meet the criteria for a low or medium response rating (low or medium damage) by the American Society of Civil Engineers.

EACH 8-FOOT-WIDE BUILDING COMES FULLY EQUIPPED WITH: Redundant placement of steel floor, wall and ceiling members covered with 10-gauge steel panels • Two steel-reinforced doors • ISO lift and tie down points at each corner • 7/16" oriented stranded board (OSB) or fiber reinforced plastic panels (FRP) • Interlocking polyvinyl coin tile • Tamperproof and shielded fluorescent overhead lighting • Two, three-inch ports for incoming electrical and communication services • Standard RJ-45 or RJ-11 phone and Ethernet jacks • Fiberglass insulation • Two HVAC units (or one wall-mounted) • Smoke/carbon monoxide detectors • ABC fire extinguishers • Exit signs with emergency lighting • Exterior coating of red polyurea

8' X 10' GUARD SHACK

Most often used for controlled entry points, these buildings include blast-resistant windows (in addition to the features listed above) to provide safe and secure viewing for personnel.

8' X 20' / 8' X 40' STANDARD BUILDINGS

From office space to storage, the open floor plan of these buildings provides you with the flexibility to meet virtually any need.

8' X 40' TOOL CRIB

Our blast-resistant tool cribs maximize efficiency by having tools, parts and necessary equipment all within arm's length inside a blast zone. Each building comes equipped with everything from chain fall and equipment racks to shelving and a lighted workbench.

PLAN AHEAD. While we're proud to feature the world's largest fleet of blast-resistant buildings and multiple, strategically placed, distribution centers across North America, it is still important to get us involved in your planning process as soon as possible. By doing so, we can not only ensure you get the buildings you need but we can get them to you in the most economically efficient way possible.
