SAFETY SUITE

STORM SHELTER

STAND UP TO MOTHER NATURE.

The best way to survive severe weather is to be prepared. At RedGuard, our blast-resistant storm shelters provide you with peace of mind knowing that when bad weather strikes you'll have a safe place to ride it out.

Each of these 12'x40' shelters holds up to 83 people and meets International Code Council ICC-500 2008 and National Storm Shelter Association requirements for a community storm shelter allowing them to be used anywhere severe weather is a threat. In addition, all RedGuard storm shelters adhere to all of our industry-leading safety specifications for blast resistance and meet API 753.

FEATURES INCLUDE

- Meets requirements for 250 mph wind speed, including EF-5 tornados and Category 5 hurricanes.
- Has received the National Storm Shelter Association (NSSA) Seal.
- Is compliant with FEMA Spec P-361 after site requirements are met.
- Portable chemical toilets, privacy screens and hand washing station.
- Natural gravity ventilation.
- Battery backup lighting.
- Anchored to foundation.

VENTILATION

Passive ventilation that can be opened after a severe weather event.

ANCHORS

Anchor points on building for easy anchoring on a concrete slab.

TESTED

Successfully tested with a 15 lb 2x4 missile at 100 mph.
