

FULLY CUSTOMIZABLE, FLEXIBLE CONFIGURATIONS THAT ALLOW YOUR BUILDING TO GROW WITH YOUR ORGANIZATION

VERSA BILT™

ENDLESS FLEXIBILITY

In business change is constant. We know firsthand how fast an operation can transform itself into something you could have never even imagined. But change is a tricky thing. It can either be a setback ... or an opportunity to take your organization to the next level. Often, the difference between the two comes down to your infrastructure's ability to adapt.

That's why we created VersaBilt—an innovative modular structure designed to meet the changing needs of fast-growing organizations. With VersaBilt, we look at your existing budget and available space to design a structure that will meet both your current and future needs.

Built upon an all steel frame, our structures are not only dramatically stronger and longer lasting than traditional wood frame buildings. They have the ability to be easily modified to grow with your organization. All VersaBilt structures are built in our own production facility to virtually eliminate your on-site disruptions and liabilities. And, as you've come to expect from RedGuard, these structures are built to stand up to heavy use and just about anything Mother Nature can throw at them.

UNLIMITED DESIGN OPTIONS. Only at RedGuard can you combine years of engineering behind modular steel buildings with the limitless amenities of a traditional brick and mortar office building. From flooring and wall coverings to custom cabinetry and restrooms (even your building's overall size), with VersaBilt, we put the power in your hands.

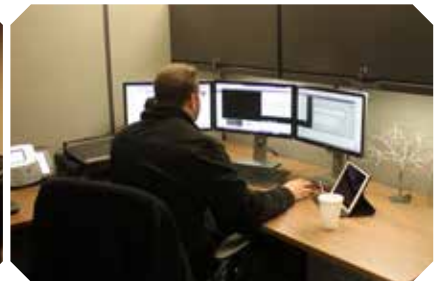

KITCHEN AND DINING

Grab a bite to eat and relax in complete comfort.

CONFERENCE ROOM

Meet while enjoying state-of-the-art protection and durability.

CORPORATE OFFICE

Work in an environment built for efficiency and flexibility.

READY TO GET STARTED? Give us a call to discuss how VersaBilt from RedGuard can provide you with many years of comfort and flexibility..
