

SECURITY FACILITIES

SUCCESSFULLY TESTED, SAFE AND SCALABLE, MODULAR SOLUTIONS

COVERSIX. SHELTERS

8'X10' | GUARD SHACK

Our 8' by 10' buildings are designed for use as guard shacks, checkpoints and observation towers. These rugged facilities are modular or portable buildings that provide personnel with climate control, power, data, communications and protection. Windows on three sides provide maximum visibility.

8'X20' | SECURITY OFFICE

Security offices provide a larger, 8' x 20' footprint than our guard shack structures. These modular or portable buildings provide the same amenities and protection as our guard shack, with the addition of comfortable work stations and cabinet storage.

8'X20' | PASS-THROUGH OFFICE

Like our standard Security Office, the Pass-through office includes climate control, power, data, communications, work station and cabinets, all in the protection of a 8' x 20' steel structure. The double door design allows for pass-through for those accessing the facility, making it ideal for permitting offices.

ALL OFFICES COME EQUIPPED WITH

EMERGENCY EXIT LIGHTING

FIRE EXTINGUISHER

INSULATED, FRP WALLS

SMOKE/CO₂ DETECTORS

BARD HVAC SYSTEM

ETHERNET CONNECTIONS

FLUORESCENT LIGHTING

GROUND-FAULT OUTLETS

FULLY CUSTOMIZABLE SECURITY If you need a building that's built like a tank but doesn't look or feel like one, we've got you covered. Our fully customizable CoverSix Shelters combine the durability and versatility of the world's best modular buildings with the comfort, functionality and security of the finest brick and mortar building. Choose flooring, wall coverings, custom cabinetry, restrooms, and even the overall size of your building. With CoverSix Shelters, the power is in your hands. The only things off limits are our unparalleled standards for strength and safety.

EXTERIOR COATING

Buildings coated with Polyurea to provide superior protection from the environment and corrosion.

EXTERIOR FINISH

Exterior finishes can include brick or stone to match surrounding architectural design.

SECURITY SYSTEMS

Buildings can include electronic security systems that include camera systems and secure access points.

CREATURE COMFORTS

Customizable building layouts can include kitchens and kitchenettes for additional convenience and comfort.

OFFICES & CONFERENCE ROOMS

Our secure modular facilities have interiors that rival the best brick and mortar offices.

SHOWERS & RESTROOMS

Building design can include top-end restrooms and amenities for personnel, public or both.

8'X5' | TURNSTILE MODULE

Turnstile modules can be added to our high quality security offices, this provides an extra layer of security and access control. Our turnstiles attach as auxiliary components creating unlimited scalability to meet the throughput required for your site. In business change is constant. Our innovative turnstile modules can be added or removed as your future needs dictate.

- Add modular access control to any site or location.
- Can be added to guard shacks or security offices.
- Full-integrated with site security systems including card readers and cameras.
- Scalable system can be added or removed at any time.
- Fabricated all-steel structure adds rigidity and durability.

UNMATCHED FLEXIBILITY

Turnstile module coupled with our 8x10 guard shack.

Multiple turnstile module coupled with our 8x20 office.

8'X5' | INSTRUMENT ENCLOSURE

Protection of vital equipment is important for ensuring continued operation of components and systems. Small modular enclosures are designed to provide a climate controlled protective environment for security equipment and systems integration.

12'X40' | VISITOR CONTROL CENTER

The modular Visitor Control Center can be placed on-site to provide a high-end facility to process visitors seeking access. Separate entrances and workspace provide security for personnel. Facility is outfitted with all the amenities of a modern office to provide a functional, comfortable and safe work environment.

24'X40' | MULTISECTION VISITOR CENTER

The Multisection Visitor Center is a state-of-the-art protected structure designed for a full security operation. Includes separate areas for security personnel and visitors, training room, and restrooms. Wrap around windows provide 270 degree visibility for added security.

SERVICE PLANS Our service programs provide the service you need to keep your buildings operating at peak performance. From basic, on-site repairs to preventative maintenance to professional services, one phone call connects you to the right resource. You don't have to wait for something to break to get support. Just like on a car, our schedule of preventative services keeps your buildings running at peak performance and can prolong the life of certain parts. So instead of trying to do these maintenance tasks in your spare time, just select the package that suits your needs.

BLAST AND BALLISTIC MITIGATION RedGuard and its defense and security division, CoverSix Shelters, made a name as the leading authority in blast-resistant modular buildings. Today, we offer buildings that are hardened, meaning blast-resistant, ballistic-protected or both. In response to customer demand, we also offer non-hardened buildings, with the same level of quality, service and expertise that we brought to the modular industry, but used on sites that do not require a hardened structure. All of our offerings can be manufactured to meet your individual site's threat requirements--whether that is blast resistance in accordance with API 752 or API 753, ballistic protection per National Institute (NIJ) Standards, or simply mother nature.

THE REDGUARD STORY.

RedGuard is the leading authority in blast resistance and a world leader in providing safe, customizable and scalable modular buildings.

Driven by a passion for product innovation, RedGuard prides itself on the development of turnkey solutions that raise the bar in both personalization and protection for customers across industries and around the globe. The company's dedication to meet each of its customer's unique needs—from initial design to installation and beyond—combined with its unsurpassed standards for quality and overall safety makes it the go-to manufacturer in the industry. RedGuard currently is home to five of the most innovative divisions and products in the area of modular safe structures and threat mitigation.

LEASEFLEET

LeaseFleet: The largest lease-ready BRB rental fleet of its kind in North America. RedGuard is the only blast-resistant building provider that offers quick, proven protection that's guaranteed to meet the needs of virtually any project—no matter how big. With nearly 1,200 buildings and growing, LeaseFleet provides safety in numbers and a level of customer service that can't be found anywhere else.

SAFETYSUITE

SafetySuite: The premier line of fully customized structures. RedGuard has the only line of custom-made blast-resistant buildings that can provide the proven peace of mind and uncompromised comfort necessary to get the job done. Backed by the industry's only successfully-tested, blast-resistant design and virtually unlimited manufacturing capabilities, SafetySuite offers a durable, comfortable and reliable environment that is unrivaled among the competition.

COVERSIX SHELTERS

CoverSix Shelters: As the defense and security division of RedGuard, CoverSix is focused on meeting the very specific needs of the brave men and women who work to keep us safe. Our design and engineering expertise calls upon the best from all the other RedGuard divisions and then modifies it to meet industry-specific needs. Structures feature threat mitigation such as blast resistance, ballistic and shrapnel protection and range from customized modular buildings to fully outfitted ISO shipping containers.

VERSABILT™

VersaBilt: The newest, innovative modular structure designed to meet the changing needs of fast-growing organizations. Built upon an all-steel frame, our structures are not only dramatically stronger and longer lasting than traditional wood frame buildings, they can be easily modified to grow with your organization. All VersaBilt structures are built in our own production facility to virtually eliminate disruptions and liabilities on your site.

SITEBOX STORAGE

SiteBox Storage: The go-to storage solution for companies throughout Kansas, Oklahoma and Texas. With unmatched logistics and one of the region's largest fleets of portable storage units and on-site offices, SiteBox Storage offers the industry's most responsive and reliable customer service to help operations become more productive, organized and better protected in the shortest timeframe imaginable.
