

# CP #1314 OPERATION FIELD CENTER

## BUILDING SPECS AND FEATURES

### Building Size:

24' X 60' X 12.6" / Double width unit

### Protection Level:

5psi / 150ms Blast resistance

### Structure Use:

This building is an Operation Field Center for a large refinery in British Columbia. In addition to the building's unique size, it was designed and engineered to be placed directly on top of an existing structure that was built by another manufacturer.

RedGuard is the leading authority in the area of modular safe space, and we are proud to have some of the world's largest corporations as our customers. While we can't always share their names, we share some of the custom projects that they have entrusted to us. We are dedicated to the concept, design, build, install and operation of blast-resistant buildings. We have earned the respect of engineers, architects, contractors, planners and other oil and gas industry specialists throughout the world.
