

CP #1445 LABORATORY

BUILDING SPECS AND FEATURES

Building Size:

12' X 40' X 11' / Single width unit

Protection Level:

3psi / 200ms Blast resistance

Building Details:

This structure is a Hydrofluoric Acid Lab now in use at a refinery in the Midwest. It is equipped with two large 8' wide fume hoods necessary for testing compounds, as well as laboratory-grade metal cabinetry and an internal safety shower.

RedGuard is the leading authority in the area of modular safe space, and we are proud to have some of the world's largest corporations as our customers. While we can't always share their names, we share some of the custom projects that they have entrusted to us. We are dedicated to the concept, design, build, install and operation of blast-resistant buildings. We have earned the respect of engineers, architects, contractors, planners and other oil and gas industry specialists throughout the world.
