

Control storage temperatures from +60 down to -20.

## MOBILE REFRIGERATION

WORKSITE/INDUSTRIAL COLD STORAGE

COMMERCIAL QUALITY, PORTABLE COLD STORAGE – CONVENIENT, SECURE STORAGE FOR REFRIGERATED OR FROZEN PERISHABLES.

## MOBILE REFRIGERATION SOLUTIONS

**20' REFRIGERATED CONTAINER** | **1,115 CUFT.**

**30' REFRIGERATED CONTAINER** | **2,391 CUFT.**

**COST-SAVING, SINGLE PHASE POWER**

**SAFE, WALK-IN GROUND-LEVEL ACCESS**

**RELIABLE, EASY TO READ TEMP GAUGE**

### CONVENIENT COLD STORAGE

Add just the right amount of mobile cold storage with a commercial refrigerated container. These commercial grade, durable containers are safe for worksites and can be used for a variety of temperature variations from a dry cooler to a deep freeze.

Available in 20' or 30' units, these containers can be set in place at ground level, and moved as needed. Ramps are available to make them easy to get in and out of. They're internally well-lit, and have quiet, single-phase electrical systems.

### SAFE, EASY ACCESS

Each refrigerated container is equipped with a small and a large door to control how much air escapes when opened. Locks can be added for a higher level of security. Like our traditional storage containers, our refrigerated storage units are ground level, making them safer, and easier to access your stored goods. Ramps are an optional accessory, added to make transporting pallets convenient and easy.

### SOLID, ECONOMICAL DESIGN

With a rugged steel frame and a solid floor design, pallet jacks are easy to maneuver. Temperature and defrost elements are by Johnson Controls. The electrical system is easy to put in place, and requires no extensive electrical work, these are among the most energy-efficient portable cold storage modules in the world.

### AVERAGE COST, DIESEL VS. ELECTRIC COMPARISON

Monthly Associated Costs	Diesel	Electric
Unit Rental Fee	\$1100	\$1050
Monthly usage time	400 hours	400 hours
Engine run time fees	\$1.10 per hour	\$0
Fuel or energy used (Diesel or Kilowatt)	400 gallons	400 hours
Fuel or energy cost (Diesel or Kilowatt)	\$2.83 per gallon	.10 per hour
Monthly delivery fees	\$400	\$0
3rd party electrical hook up (amortized)	\$0	\$92
<b>Total Monthly Charges</b>	<b>\$3,072*</b>	<b>\$1,182*</b>

\*Approx. savings may vary based on market location

### Key Benefits:

- Dependable, secure location for perishables
- Cost-efficient, energy efficient
- Quiet, electric operation
- No fuel costs. 80% energy cost savings over diesel reefer units

### Product Specs:

- 20' and 30' (1,115 cubic ft or 2,391 cubic ft.)
- 240 volt, single phase, electric
- Adjustable thermostats, automatically defrosts
- Stainless steel interior walls
- Overhead, LED lights with motion detection
- Aluminum, diamond-plate flooring
- Factory set temperatures from -20 to 60 degrees
- Emergency escape latch

### BENEFITS OF ELECTRIC SINGLE PHASE UNITS.

-  Cheaper to operate
-  Quieter Operation
-  More accurate temperature control
-  Environmentally friendly
