

12'-WIDE

SUCCESSFULLY TESTED BLAST-RESISTANT BUILDINGS FROM REDGUARD.

LEASEFLEET

MORE ROOM, MORE OPTIONS, SAME PROTECTION.

Get the space you want and the safety you need with one of our 12-foot-wide blast-resistant, CSA-certified buildings. All buildings are constructed from the ground up utilizing CWB-certified welders to achieve the highest Canadian weld standards. Insulated for extreme Canadian weather and engineered to RedGuard's industry-leading safety specifications, each of these 12 x 40-foot blast-resistant buildings adheres to API 753 and has been successfully blast tested. In addition, each of these buildings meet the criteria for a low or medium response rating (low or medium damage) by the American Society of Civil Engineers.

EACH BUILDING COMES FULLY EQUIPPED WITH: Redundant placement of steel floor, wall and ceiling members covered with 10-gauge steel panels • Two steel-reinforced doors • ISO lift and tie down points at each corner • Fiber-reinforced plastic wall and ceiling panels • Interlocking polyvinyl coin tile flooring • Tamperproof and shielded fluorescent overhead lighting • Two, three-inch ports for incoming electrical and communication services • Standard RJ-45 or RJ-11 phone and Ethernet jacks • Fiberglass insulation • One wall-mounted HVAC unit • Smoke/carbon monoxide detectors • ABC fire extinguishers • Exit signs with emergency lighting • Exterior coating of red polyurea

AVAILABLE CONFIGURATIONS

OPEN FLOOR PLAN

The most versatile building in our fleet, this model's 480 square feet of open space is perfect for anything from office space to an employee lunch room.

ONE AND TWO WALLS

Gain office space and storage capabilities with our one- and two-wall blast-resistant building that feature separate outside entries for easy access and reduced traffic.

TOOL CRIB

Our blast-resistant tool cribs maximize efficiency by having tools, parts and necessary equipment all within arm's length inside a blast zone. Each building comes equipped with everything from chain fall and equipment racks to shelving and a lighted workbench.

PLAN AHEAD. While we're proud to feature the world's largest fleet of blast-resistant buildings and multiple, strategically placed, distribution centers across North America, it is still important to get us involved in your planning process as soon as possible. By doing so, we can not only ensure you get the buildings you need but that we can get them to you in the most economically efficient way possible.
