

CUSTOM FABRICATION FOR CRITICAL OPERATIONS

Armoda provides turnkey engineering and custom manufacturing of modular structures, technical buildings, fiberglass structures, equipment skids, and portable facilities for energy, maritime, defense, industrial, and infrastructure applications. Our team combines engineering, fabrication, and compliance expertise to deliver fully integrated solutions that simplify installation, accelerate deployment, and withstand the world's most challenging operating environments.

INDUSTRIES WE SERVE:

- Oil & Gas
- Energy
- Maritime
- Petrochemical
- Renewable Energy
- Military

BUILT TO EXCEED EXPECTATIONS

Custom Manufacturing

Single lift modules, ABS (PAM)/USCG/DNV modules, fiberglass structures, technical buildings (E-House, MCC, PDC, VFD, etc.), container modifications, process skids, workshops

Capabilities

Custom project engineering, integration of supplied or free issued equipment, structural fabrication, blast and paint, insulation, HVAC, electrical, architectural finishes and plumbing

Certification Requirements

Built to meet rigorous specifications, ratings and regulatory requirements ensuring the highest levels of safety and quality

CAPABILITIES:

Design Elements

- Blast, fire, hazardous areas
- Single lift modules
- Custom sizing and design

Architectural

- Custom wall and ceiling finishes
- Raised computer floor
- Epoxy coated floors

Alarm/Detection

- Fire and gas detection
- Fire suppression
- Pressurization/CPFG

Electrical Integration

- Procurement and integration of equipment
- Integration of free issued equipment
- Cable runs for customer installed equipment
