

ENGINEERED FOR HAZARDOUS ENVIRONMENTS

When operations demand personnel occupancy in classified hazardous areas, Armoda's Hazardous Area Modules provide safe, compliant and reliable workspace solutions. Designed and certified for offshore, marine, energy and industrial applications, these modules are engineered to meet stringent international standards while delivering the comfort, functionality and safety required in Zone-rated environments.

INDUSTRIES WE SERVE:

- Oil & Gas
- Energy
- Maritime
- Petrochemical
- Renewable Energy
- Military

BUILT TO EXCEED EXPECTATIONS

Certified for Hazardous Locations

Designed to meet DNV 2.7-1, DNV 2.7-2, ATEX and IECEx requirements, Armoda's Hazardous Area Modules are purpose-built for deployment in classified hazardous environments where personnel safety and operational reliability are critical.

Advanced Safety Systems

Each module is equipped with an integrated Control Pressurization, Fire & Gas (CPFG) system approved for Zone 1 installation. The system includes hydrocarbon and H₂S gas detection, smoke detection, manual call points, pressurization monitoring and automated safety controls designed to maintain safe occupancy.

Occupied Space Protection

Designed with an internal air-lock and control pressurization system, these modules provide an added layer of protection by maintaining a controlled internal environment while supporting safe personnel access and occupancy.

AVAILABLE ASSETS

- 8'x12' Office
- 8' x 16' Officer
- 8' x 20' Office
- 8' x 20' Mud Lab
- 8' x 20' Driller Module
- 9' x 27' Office / Lab

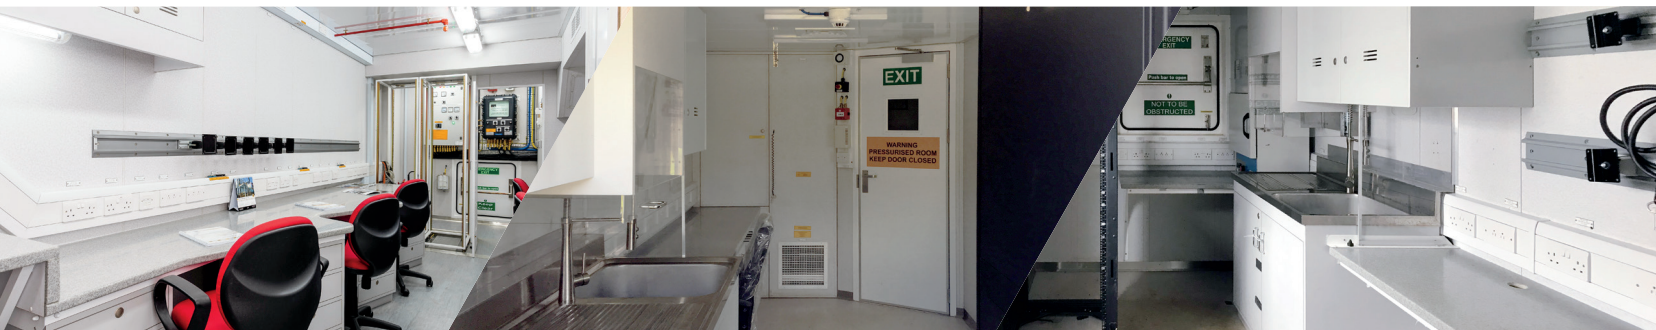

Custom configurations available upon request

Comfortable Work Environments

Redundant HVAC systems, marine-rated wall and ceiling panels and A60-rated construction provide a durable, comfortable and reliable workspace capable of withstanding demanding offshore and industrial conditions.

Flexible Module Configurations

Available in multiple sizes, these modules can be configured to support offices, laboratories, control rooms, workshops and other mission-critical applications requiring hazardous area certification.

SPEAK WITH OUR TEAM

Armoda's Hazardous Area Modules deliver the safety, compliance and reliability required for occupancy in classified environments. Speak with our team to find the right solution for your operation.
