Monthly, Quarterly, Semi-Annually, and Annual Inspections

Ensure the longevity and optimal use of your blast-resistant buildings with regular inspections scheduled at intervals that work for you. This service maximizes the life and utility of your current structures and includes the necessary maintenance of all systems. This proactive approach significantly reduces disruptions in the work area, letting you remain undistracted and focused on your core tasks. Plus, it ensures a commitment to transparency in the condition of your building.

RedGuard builds modular solutions that protect lives and assets. It is the leading supplier of blast-resistant buildings and modular safe spaces. RedGuard's other innovative divisions and product lines specialize in modular safe structures, most with threat mitigation. The company is dedicated to five key disciplines: concept, design, build, installation and operation. Its success across these areas of expertise has led some of the world's largest organizations to trust their employees' lives to RedGuard products.
