

## TOOL CRIB

Maximize efficiency by having tools, parts and substances within arm's length inside a blast zone with a RedGuard 8' x 40' blast-resistant tool crib. Engineered for blasts of 8 psi (200 msec in duration), our tool crib adheres to API 753. In addition, these tool cribs meet the criteria for a low or medium response rating by the American Society of Civil Engineers.

### BUILDING SPECS AND FEATURES

**Building Size:**

8' X 40' X 8'6"

**Protection Level:**

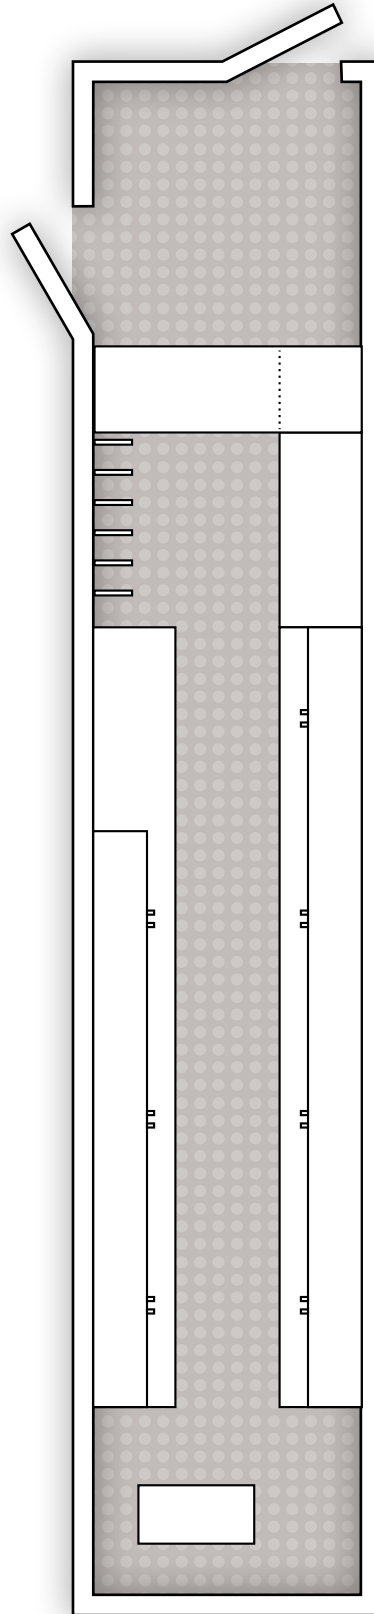

8 PSI / 200 MS Medium Response

**Why RedGuard?**

RedGuard is the leading authority in blast resistance and a world leader in providing safe, customizable and scalable modular buildings. RedGuard has aligned with industry-leading strategic partners who are known across the globe, and with a third party engineering firm recognized as the foremost authorities on blast engineering. To save time and money, and to mitigate hazard areas as soon as they are identified, RedGuard can provide you with immediate turnkey solutions, or we can custom engineer a solution based on site requirements.
